Like many other people I'm sure you've already heard speak out, I don't understand how you can say the proposed settlement with Microsoft is fair and just. For as much of my tax dollars that went into fighting them in court and ruling against them, I don't see anything to show for it. Since when does the court allow the guilty to choose their own punishment? I strongly urge you to please reconsider your previous judgment and to do something that will actually punish Microsoft for the horribly anticompetitive actions they've undertaken.
